

Office Memorandum • UNITED STATES GOVERNMENT

TO : Management Officer

FROM : Acting Executive

SUBJECT: Reorganization of Special Support Staff Units

DATE: 14 August 1950

Reference: Memo from Management Officer to Executive on above subject
dated 9 August 1950

1. Recommendations contained in paragraph 4 of reference memorandum are approved, except as indicated below:

a. The need for an active member of the armed services in the Military Requirements Section is not apparent. Many Agency activities requiring constant liaison with the armed services are staffed by civilian personnel and function quite adequately. We desire to keep the numbers of active military personnel attached to the Agency to an absolute minimum essential to operations.

b. Qualifications of individuals for the Contract Section should be discussed with the Chief, Special Support Staff.

c. Establishment of port officers should be the subject of more specific recommendations, coordinated with the Chiefs of the Special Support and Administrative Staffs.

2. Adequacy of warehouse facilities should be coordinated between Special Support and Administrative Staffs, and more specific recommendations submitted. If increased facilities are definitely recommended, detailed justification is desired.

FOR THE DIRECTOR OF CENTRAL INTELLIGENCE:
